

# Experience Overview

Wild Well Control continues its tradition of being the global leader in emergency response, well control, subsea operations, and training by offering a range of services to meet the industry's ever-changing needs. As a leader in well control, Wild Well responds to more than 80% of all blowouts around the world.

Whether offshore or onshore, Wild Well responds quickly with experienced personnel and customized equipment to maintain the integrity of a wellbore through the use of innovative engineering solutions. And with the continual introduction of pioneering, award-winning subsea technology, Wild Well revolutionizes the industry's capabilities, saving operators time and money.

### Emergency Response Services

- Firefighting & Well Control
- Well Control Engineering
- Pressure Control
- WellCONTAINED

### Non-Emergency Services

- Well Modeling
- Advanced Engineering
- Well Integrity Services
- Relief Well Planning
- ControlSEAL
- Subsea intervention
- Well Control Training
- Risk Assessment/Analysis
- Emergency Response Planning
- Well Control Equipment Surveys

### Well Control Services

	2013	2014	2015	2016	2017
Surface Blowout with Fire	7	2	3	3	2
Surface Blowout	27	32	12	17	36
Underground Blowout	3	0	0	0	0
Pressure Control	62	41	34	25	33
Other	57	32	37	48	27
<b>Total</b>	<b>156</b>	<b>107</b>	<b>86</b>	<b>93</b>	<b>98</b>

### Engineering Projects

	2013	2014	2015	2016	2017
Response Plans & Exercises	48	76	47	39	65
Relief Well Projects	3	2	2	4	3
Consulting	24	19	30	23	22
Well Control Modeling	30	12	9	10	12
Relief Well Dynamic Kill	23	71	58	42	43
Advanced Engineering	32	39	69	33	49
<b>Total</b>	<b>160</b>	<b>219</b>	<b>215</b>	<b>151</b>	<b>194</b>

### Personnel Resources

Position	No.
Well Control Engineering	29
Well Control Operations	18
Intervention Special Services	15
Subsea Engineering & Intervention	34
Safety	9
Environmental	2
Training Instructors	21
