

GULF COAST WELL SERVICES »»

A SUPERIOR ENERGY SERVICES COMPANY

WARRIOR OVERVIEW »

Warrior provides premium services related to drilling, completions, workover and decommissioning to all Gulf of Mexico and Gulf Coast operators. Warrior specializes in high-temperature and high-pressure wells in addition to engineering expertise in all completions and workover operations.

PRODUCT LINES »

- » Slickline & Data Services
- » Acidizing & Pumping
- » Plug & Abandonment
- » Rentals
- » Coiled Tubing
- » Electric Line Services

SLICKLINE CAPABILITIES »

Superior Energy Services' slickline and braided line operations provide comprehensive wellbore maintenance and mechanical remedial work for operators to keep production operations running efficiently. Our large inventory of various wire and cable sizes, in addition to special alloy wires allow us to perform a wide array of services in harsh environments. Whether it is sour gas service, high pressures and temperatures, or complex wellbore diagnostic, Superior has the experienced personnel and equipment to get the job done safely and to our customers' satisfaction.

- » Gauge / Dummy Runs
- » Paraffin cutting
- » Chipping deposits
- » Sand bailing
- » Swabbing
- » Setting and pulling of safety devices
- » Specialized fishing operations
- » Dump bailing
- » Locating and packing off holes and leaks
- » Shifting sliding sleeves
- » Corrosive environment equipment
- » Heavy fishing equipment

PUMPING SERVICES »

Warrior Pumping Services has the technology, resources, and experience to deliver effective and cost efficient sand control, stimulation, thermal, and miscellaneous pumping services. We provide best-in-class service on land, inland waters, and offshore.

SKID FLEET

- » Sand Control equipment for your every need, whether it is a TTGP or a full scale Frac Pack.
- » Acidizing equipment for any size job.
- » Flameless Thermal Units provides exceptional performance in removing organic deposits from wellbores, pipelines, and surface equipment.
- » Batch blending equipment and pumps for your remedial cementing and cement packer needs.

STIMULATION SUPPORT

- » Fully functioning laboratory to assist you in properly diagnosing your wells performance issues.
- » Experienced support staff that knows how to maximize your return on investment.
- » Proprietary stimulation acid and frac fluid systems.

PLUG & ABANDONMENT »

Experienced overall leader providing multiple services including, cementing, wireline, torque & testing, casing cutting & pulling and the ability to drill & pin multiple strings of casing. The division also offers, diamond wire cutting services, and hot bolting.

- » Torquing (“Nippling Up & Nippling Down”)
- » Hot Bolting
- » Hydrostatic Testing (“Straight Test”)
- » Combo Torquing and Testing (“Nipple Up/Nipple Down & Test”)
- » Diamond Wire Saws / Cutting
- » BOP Stack Lifting
- » Rentals
- » Various Sizes of BPV’s, Slip Rams, Non Rotating Rams, Punch Rams

RENTALS »

Concentric Pipe & Tool Rentals is a rental company specializing in equipment for gravel pack and frac pack completions including high pressure integral 2, 3 and 4 inch choke and squeeze manifolds, Coflex hose, connecting iron, frac heads, locking swivels, wash pipe, screen tables and all related handling tools.

- » Frac & TCP Equipment
- » Coiled Tubing/Well Intervention Support Equipment
- » Wireline Support
- » Gravel Pack Equipment
- » (S.S.W.S) Superior Safety Wrench System
- » Land Based Crane Trucks

A SUPERIOR ENERGY SERVICES COMPANY

COILED TUBING CAPABILITIES »

Warrior Coiled Tubing operates 1.25" thru 2.375" for both offshore and land with fluid and nitrogen pumping services utilizing pressure control equipment from 3-1/16" to 5-1/8" with pressure rating up to 15,000 psi. Warrior provides project engineering and operational support for all coiled tubing services. For your pipeline flow assurance needs Warrior offers the patented CoilTac service for extended reach pipeline cleanouts in addition to deep water downline coiled tubing deployment.

- » Project Engineering/Management
- » High PSI, Temp
- » Deep Water
- » Pipe-line Cleanouts - CoilTac™
- » Milling-Drilling
- » Jetting
- » Washing Fill
- » TTGP
- » Cementing
- » Perforating TCP
- » Production Logging (Memory)
- » TCP- Coil/E-Line
- » Sand Cutting/Perforating
- » Combined Services - Pumping & Stim, Concentric, etc
- » Open Water Remediation
- » PLET/Hot Stab Line Flushing
- » Dual Down Lines

E-LINE CAPABILITIES »

With a combined work force of over 75 years of experience, Warrior offers a complete array of cased-hole electric line services, and conventional pipe recovery for the GOM/Gulf Coast. Warrior offers specialized perforating, and Deepwater severing techniques in difficult situations and environments.

- » Servicing The Gulf Coast Area Offshore & Land Since 1998
- » Having A Combined Work Force with Over 75 Years Experience In The Industry
- » Mechanical Electric Line Services
- » Conventional Pipe Recovery
- » Logging Services
- » Specialty Perforating Services
- » HPHT Services
